

ROHM Co., Ltd.

Technical Documentation – Header File (No. 201602)

Product	Type	Second generation ROHM sensor evaluation kit
	Name	SENSORSHLD1-EVK-101
	Description	Evaluation platform that integrates multiple ROHM sensor products on a single board. The shield uses standard Arduino shield interface pins, making it possible to connect to any evaluation kit with a shield interface header.
Conformity Assessment	Design	Module A according to 768/2008/EC
	Production	Module A according to 768/2008/EC
